1/ Not comparable with annual data for assistance based on monthly series (table 1); mainly because data in this table include more cancellations of payments.
2/ Data for all or part of period were included in a total reported for aged, blind, and disabled under provisions of Title XVI. For purposes of this release these data are distributed to OAA, AB, and APTD on an estimated basis.
3/ Includes money payments not subject to Federal participation as follows; $200 in Colorado, $8,451 in Connecticut, $108,281 in Kansas, $1,186,400 in Massachusetts, $215,000 in Minnesota, $102,400 in New Jersey, $618,344 in New York, and $28,924 in North Dakota.
4/ Less than $500.

1/ Averages based on cases receiving money payments, vendor payments for medical care, or both. Money payments may also include small amounts for assistance in kind and vendor payments for other than medical care. Averages for general assistance not computed because of difference among States in policy or practice regarding use of general assistance funds to pay medical bills for recipients of the special types of public assistance.

2/ Except for aid to families with dependent children, data for each program represent average payments for recipients of the specified type of assistance under the combined program for aid to the aged, blind, or disabled, or for such aid and medical assistance for the aged.

3/ No program in operation.

4/ Average payment not computed on base of fewer than 50 recipients.

1/ Federal participation in vendor payments for medical care under programs except general assistance, which is financed entirely from State and local funds, was made possible beginning October 1, 1950, by the Social Security Amendments of 1950. Since then there have been a number of changes in the method used to compute the Federal share of assistance. A 1957 change tended to depress the amount of vendor medical payments in 1957 and 1958.

2/ Averages based on cases receiving money payments, vendor payments for medical care, or both. Averages for general assistance not computed because of difference among States in policy or practice regarding use of general assistance funds to pay medical bills for recipients of the federally-aided categories.

3/ Includes amounts used to pay medical bills for recipients of the federally-aided categories.
